

Zebra OneCare™ SV for Printers

A SPECIAL VALUE LEVEL OF SERVICE AT THE RIGHT PRICE

The availability of your Zebra printers is key to the success of your business. But without a service plan, a single repair can cost more than the printer — and without turnaround times defined in a service plan, your printer can be out of service for an extended period of time. And with some printers, comprehensive coverage may be more than you need. But now, the right level of service is available at the right price with Zebra OneCare™ SV for Printers.* This special value level of service provides two years of protection against failure, coverage for normal wear and tear, priority repair turnaround time, free return shipping and access to unmatched technical support — all for a fraction of the cost of single, uncovered repair. Protect your critical operations and your printers with defined service levels for less, with Zebra OneCare SV for Printers.

Normal Wear and Tear and Functional Failure Coverage Keeps Your Printers Up and Running

Over time, keypads show signs of wear, platens wear down, and major functional failures can occur that would take your printer out of service. With Zebra OneCare SV, you're covered. And if you do need to send your printer to the depot for repair, turnaround time is half that of Warranty repairs — 5 days instead of 10 — with free return shipping. The result? Less downtime, lower and predictable repair costs — and no unnecessary new hardware purchases.

Put your Printer Back into Service, Right Out of the Box

With Zebra's optional Device Commissioning Service, once your repair is complete, we'll restore all your settings, label formats, software and applications before we ship it back. Your printer is ready to return to work the moment you take it out of the box. Just plug it in — we take care of the rest.

Get Two Full Years of Direct-from-the-Manufacturer Technical Expertise

Zebra OneCare SV expands availability of technical support for two full years. With priority access to experts who can help resolve technical problems and optimize the performance of your printers, you get the help you need to keep your operations running smoothly — and get the most out of your investment. Technical Support is provided by phone during your business day, and through our always available web-based self-service support portal. And with support available in 17 languages, we can take care of your support needs, no matter where you are located.

FACT SHEET

ZEBRA ONECARE SV FOR PRINTERS

Comprehensive Self-service Tools

Available 24x7, Zebra's Support Center is your first point for contact for answers and resolutions. This intuitive, self-service portal provides the assistance you need, when you need it. Search knowledge articles and FAQs to locate answers quickly. Find product manuals, configuration, and troubleshooting information. Even begin a repair request online at your convenience.
