

Evolve III's mission is to deliver the highest quality product at the most affordable price possible. We do this by developing evolutionary electronic devices for education and business users.

Company

Evolve III is the sum total of our partnerships. Microsoft, Qualcomm, Intel, and our top tier resellers and distributors allow us to execute. When you purchase Evolve III products, you purchase from them.

Milestones

Evolve III achieved 30% of all entry level Windows devices in the U.S. in 2020. The company also experienced a 110% increase in sales and delivered over 120k education units over the last 2 quarters to schools and partners all over the U.S.

Connectivity

Evolve III partners with Verizon, AT&T and T-Mobile to offer connected devices to students and businesses. All connected devices have coveted PTCRB and carrier certifications. Thousands of devices have been activated on the U.S. carriers networks.

Price Point

Windows at the price of Chrome. This has always been our goal and is a key component of our partnership with Microsoft. At under \$300, Evolve III offers powerful Intel based machines running full Windows 10. They feature Top tier components at education price points.

Warranty

Limited hot swap warranty with extended and comprehensive accident coverage available.

Innovation

We partner with school districts to provide what schools want and need. For example, Hillsborough County Florida recently began a customized co-development laptop project that will begin delivery in May 2021. Schools no longer have to conform. We provide what they need at the best price.

Recent Key U.S. Wins

- Awarded Hillsborough County Public Schools Technology partner supplying laptops, tablets, docking stations, and more.
- Delivered 20,000 laptops to State of Washington schools.
- Supplied Evolve III Smart Classroom products to CSN College including Smart Boards, OPS Modules Video Conferencing Equipment etc.
- Selected as a supplier of technology peripheral to Eduprise Charter Schools Network.
- Evolve III supplied The US Government with GSA certified devices. (NASA SWEP)

Recent Key International Wins

- Evolve III achieves top Australian OEM for Windows Devices.
- Awarded contract as supplier of portable monitor for major resellers in Japan and South Korea.
- Evolve III awarded contract in the Czech Republic

For more than a decade Evolve III has grown incrementally. Specializing in custom purpose-built devices for years, Evolve III is entering the mainstream. Although a smaller private company, Evolve III is a financially sound and debt free entity with risk adverse leadership that values our partners success as much as our own..
