

# Thermal Printer and Supplies Reports

Providing clear insights about your thermal print environment and the consumable supply requirements - offering instant value and allowing you to make well-founded decisions.

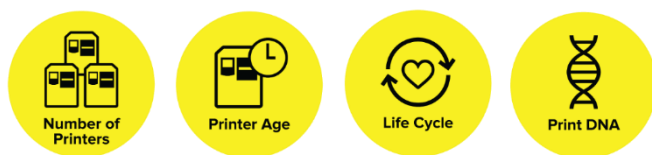

## Zebra Assessment Report

The right decisions are based on having the right information

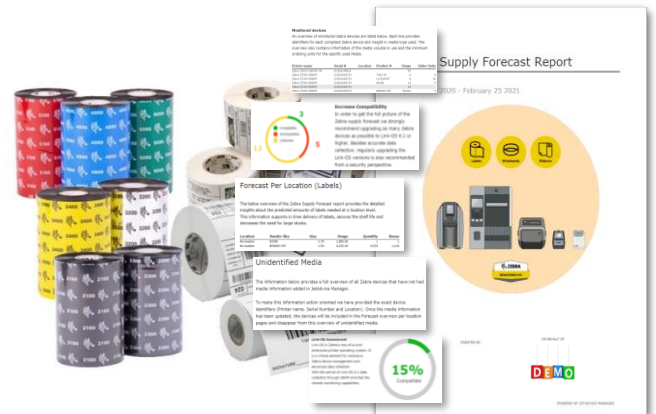

The **Zebra Assessment Report** provides valuable data and information about your thermal printer fleet and will enable you to make important decisions about continuity, productivity, security, and other critical business drivers.

On top of providing information about the different vendors and printers, the report also contains valuable details about the life cycle of your printers. This information can help you answer questions like: **What is the impact on our business when printers are approaching End of Life or End of Service?**

## Zebra Supply Forecast Report

Easy overview of your Zebra Supply and Media forecast

The **Zebra Supply Forecast Report** estimates the short-term needs of supplies for the Zebra devices in the account and is based on data from the account's historical printing behavior of Zebra devices - allowing you to plan accordingly for future supply management.

This Zebra Supply Forecast report provides valuable data from the Zebra devices in your printer fleet; including **Link-OS assessment and Forecast per location**

According to Quocirca\*, **Managed Print Services can reduce your printing costs by up to 30%.** Research has revealed that **over 70% of all companies are not aware of the details of their thermal printer fleet.**
